

## Jusa Leander

Fullstack developer

Telephone 040 733 5059

Email [jusaleander@hotmail.com](mailto:jusaleander@hotmail.com)

Website [jusufjulma.github.io](https://jusufjulma.github.io)

## Profile

27 years old guy with strong generalist mindset and fullstack development experience from Drupal 8 and JavaScript. Not afraid of client meetings, persistent bugs or obscure frameworks.

When I'm not programming, I'm most likely doing some music related projects or having some quality time with my girlfriend and our little tortoise.

## Language Skills

I am professionally efficient in English and Finnish, the latter being my native language. On top of that I know basics from Spanish and Russian. And of course Swedish on fundamental level.

## Experience

Junior Developer Trainee, 2019  
Mirum Agency

Working as a part of multinational team on a major scale website project. Main technologies used were Drupal 8 and PHP frameworks, JavaScript and SCSS. In addition to programming communication and planning were involved as well.

Construction Worker, Barona 2017

Various tasks on both big and small sites. Tasks varying from logistics and cleaning to team leading and safety management.

Security Guard, G4S 2014

High level security in data center worksite.

## Education

Fullstack Developer, HBC 2018-2019

Fullstack development on professional level

Lappeenranta University of Technology 2011-2017

Mechanical Engineering and International Business studies

Haminan Lukio, ylioppilas 2011

## Technical skills

Drupal 8, JavaScript, SCSS/CSS, TWIG/HTML, PHP/Symfony, git, bash, React, SQL.

I take pride in providing high quality work and am willing to push hard when needed. I am also a quick learner and not afraid to ask for advice when in doubt.
